Re: Interim Policy Memo 2019-2: Inflicted Physical Injury Reporting

This memo is to clarify the new language implemented in March of this year for policy GPC 9: SUSPECTED CHILD/ELDER/DEPENDENT ABUSE; Inflicted Physical Injury.

If Law Enforcement is on scene, the healthcare provider(s) on scene shall:
  - Ensure the officer is aware of suspected or actual inflicted physical injury.
  - Confirm with the officer that they will be reporting the inflicted injury.
  - Document this conversation in the narrative of your PCR, including the name of the law enforcement department/agency on scene.

If Law Enforcement is not on scene or will not be reporting the inflicted injury:
  - The healthcare provider(s) on scene shall follow the process in policy GPC 9; Inflicted Physical Injury and utilize OES form 2-920 (GPC 9c).
