TRAUMATIC INJURY

**Indications**

- Suspected or apparent injuries which meet conditions listed on the Marin County Trauma Triage Tool

**Flowchart**

1. ALS RMC
2. Trauma center notification
3. Control of bleeding
4. Pain management as appropriate

**If SBP <100**
- Consider 2 large bore IV/IOs
- **NS** fluid challenge 250-500ml IV/IO

**For head injury patients, consider Zofran** to prevent vomiting which could increase ICP

5. Prepare for early and rapid transport to the appropriate trauma center

**SPECIAL CONSIDERATION**

- If injury may have resulted from abuse, neglect, assault, attempted suicide/homicide and/or other crimes, refer to Suspected Abuse/Neglect/Human Trafficking Policy for reporting
