Please find the 2022 update to the EMS Policy and Procedure Manual. These new and revised policies and procedures are effective **April 1, 2022**.

The majority of the changes were policies revised into flowchart format, however there are several policies with content changes. Please make sure you have received the required policy education from your department educators.

The policies are posted here: <https://ems.marinhhs.org/policies-and-procedures>

New P&P field manuals are being printed now and will be available in May.

Revised or new Policies and Procedures include:
